

Friday, January 17, 2020

Dear Minister Yakabuski,

The Muskoka Ratepayers are pleased to see the release of Douglas McNeil's Independent Review of the 2019 Flood Events in Ontario.

We are writing to inquire as to the next steps that will be taken to help mitigate future flood damage, particularly in the Muskoka watershed. In particular, our members would like to know if there are any plans to call for infrastructure changes to help control flooding during the Spring freshet.

We would appreciate it if you could keep our Association informed as things progress on this file.

Sincerely,

Liz Denyar
President
Muskoka Ratepayers
